

Creating Healthier Communities, Together

CHC: Creating Healthier Communities is a nationwide nonprofit—a catalyst for good health—bringing communities, nonprofits, and businesses together around a shared commitment to better health and wellbeing.

We represent thousands of high-impact nonprofits, working to address barriers to good health, and we connect them with capital from our corporate, foundation and government partners to power transformative change in the communities in which they work. By listening to partners and convening community leaders, we act in the best interests of each community, directing resources and expertise where it is needed most. Plus, we're led by a dedicated board of directors from top companies such as Coca-Cola, the Cleveland Cavaliers, Chevron, Walmart, Kimberly-Clark and more.

WHAT WE DO

We convene leaders at the national, regional and local levels to educate, elevate key issues and improve social impact, equity and community health and wellbeing.

We collaborate with community leaders and coalitions to harness collective efforts; working together to tackle projects that improve community health and wellbeing and address root causes and inequities at scale.

We connect companies with causes to increase their social impact through workplace giving, employee engagement, volunteering, health resources, engagement tools, cause marketing, grants, events, community partnerships and more.

We channel resources to scale the impact of high-impact nonprofits by raising awareness, amplifying their message, and driving more funds and supporters to their cause. Plus, we offer consolidated backend services like payments, processing and more to reduce nonprofit administrative costs.
